

# Solution Profile

## 15kV Switchgear Emergency Response

*Committed to providing cost-effective solutions that make you more effective!*

<u>Client Type</u>	Utility Substation
<u>Challenge/Issue</u>	Repair bus and re-pitch existing bottles in compressed leadtime during a snowstorm
<u>Equipment Involved</u>	15kV MV circuit breakers and switchgear, 2000A horizontal bus, non-walk-in outdoor cell
<u>Solution</u>	Remove bus to repair, re-pitch bottles and replace
<u>Scope/Deliverables</u>	Erect tent around the switchgear while performing work. Remove the bus and re-plate, re-pitch bottles and replace. Replace and re-gasket the roof on-site and replace heaters.
<u>Timeframe:</u>	7 days
